

Is Aging in Place the New American Dream?

As we reach retirement age, most of us prefer to stay at home. Housing challenges, such as affordability, physical accessibility, socialization and access to medical and other services can be challenging.

Join us for a discussion led by seasoned professionals who assist clients with these and other concerns

As we grow older, we are faced with many difficult decisions regarding our housing choices.

- If I stay in my home what modifications do I need?
- Do I move to a right sized home or 55 plus community?
- Who will care for me if I am sick?
- Am I legally ready for retirement
- How do I pay for all of it?
